

THANE · 2024 · VOL 13

Jupiter Hospital Thane, in collaboration with **the Society of Neuro Critical Care (SNCC)**, organized the second National Conference on **Comprehensive Neuro Nursing Course (CN2C)** on **19th and 20th September 2024**. The event took place at Fortune Hotel, near Jupiter Hospital, and aimed to bring together nursing professionals, experts, and instructors to discuss advancements, challenges, and innovations in neurocritical care. A total of 85 candidates enrolled for the two-day event. Pre-tests and post-tests were conducted to assess baseline knowledge and effectiveness of the sessions. Delegates also earned Maharashtra Nursing Council credit points as part of their Continuous Professional Development (CPD).

INAUGURAL CEREMONY:

The conference began with a lamp lighting ceremony attended by distinguished guests:

Dr. Ravindra Ghawat, Director Critical Care
Medicine, Workshop and Course Director

Dr. Shine Anil, Workshop Coordinator and CNO

Dr. Amit Saraf, Head-Patient Safety & Quality and
Director Internal Medicine

Mr. Harshad Purani, President and Head-CSR

Mr. Neelesh Shinde, Group CTO

Ms. Manisha Shah, Group CHRO

Deputy Nursing Officers, Nurse Educator,
Nurse Managers, and a Delegate

DAY 1 HIGHLIGHTS:

The first day commenced with an introductory speech by Dr. Ravindra Ghawat, who welcomed the speakers and delegates and provided a brief overview of neuro nursing. This was followed by a welcome note by Our Group COO, Dr. Shilpa Tatake, joined in for her support and motivation. The inaugural session set the tone for the day, which included various sessions led by in-house Nursing Admin Team, Consultants, Intensivists, and international speakers Ms. Karuna Thappa (International Lead of SNCC) and Ms. Kriti Napit, who were present on both days. Mr. Prafulla Salunkhe, an observer from the Maharashtra Nursing Council (MNC), was present throughout the sessions and provided valuable inputs. All the dignitaries and the opening session by Dr. Shine Anil.

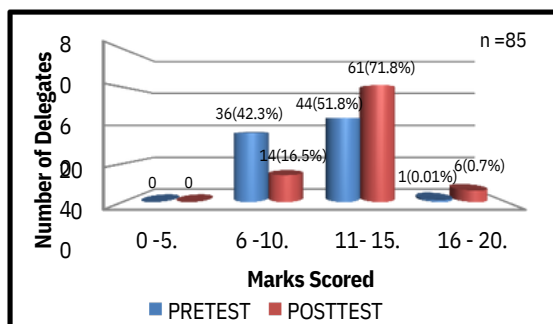

DAY 2 HIGHLIGHTS:

The second day of the conference began with great enthusiasm. The afternoon sessions featured 4 interactive and simulation-based workstations conducted by Nurse Educators, Nurse Managers, and in-house ICU Doctors. Towards the end, an open forum was provided for delegates to share their experiences and reviews, fostering a collaborative and engaging environment, followed by digital feedback to understand the lacunae and gain insight on future improvements. The event concluded with appreciations and a vote of thanks.

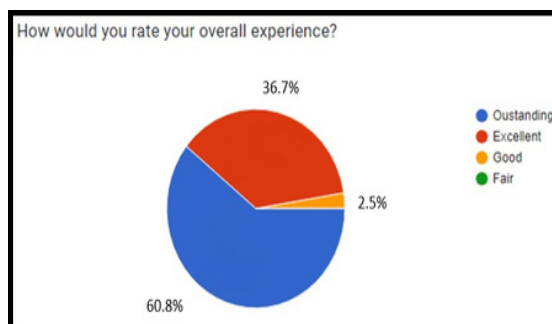

Program Schedule	
SNCC -CN2C WORKSHOP	
Day 1 : 19th September 2024	
Topic	Speaker
Registration + Breakfast	
Opening plenary	
Keynote address by Workshop Director	Dr. Ravindra Ghawat-Director Critical Care Medicine Jupiter Hospital Thane and Course Director CN2CC
Pre-Test	
Scope and strategies to improve competency in Neuro nursing	Dr. Shine Anil-Chief Nursing Officer
Back to Start -Anatomy and Physiology (CNS)	Dr. Trupti Mhatre- Vice principal, ITM CON, Kharghar
Neurological assessment – A quick glance	Ms Rani Santosh-NM Neuro CCU, Jupiter Hospital Thane
Tea Break	
Neuro Diagnostics-What a Nurse should know.	Ms. Karuna Thappa-International lead, SNCC
Role of Sedation and Pain Management in Neuro Care	Dr. Dilip Karnad-Senior Consultant ,Intensive Care
Neurological Disease (Overview) Series 1 : Myasthenia Gravis and GBS	Dr. Yogesh Godge-Director, Department of Neurology
Lunch Break	
Neurological Disease (Overview) Series 2 : Aneurysm overview	Dr. Kuldeep Dalal
Neurological Disease (Overview) Series 3 : TBI and its management	Ms. Kriti Napit
Neurological Disease (Overview) Series 4 : Seizure and its management	Dr. Tanveer Ali- Chief, Emergency Medical services
Tea Break	
Neuro Rehabilitation-Journey to recovery	Ms. Marina Pinto- CCU Coordinator
ICP Monitoring: Invasive and Non invasive	Dr. Shubhra Sen - Consultant Intensivist
Synopsis : Sketch/Jot down the Learning	Ms. Savita Manvel
Day 2 : 20th September 2024	
Breakfast	
Mechanical Ventilation	Ms. Karleena Thomas-Nurse Educator
Caring for a Paediatric patient with Neurological disease.	Ms. Prajakta More-Nurse Educator
Post-Operative care in Neurological surgeries	Ms. Tiji George-Sr. Manager, Quality
Handling Psychological concerns in neuro patients	Ms. Rajashri Bhise- Clinical Psychologist & Psychotherapist
Tea Break	
Managing a Brain Dead	Dr. Sanjay Walke- Consultant Intensivist
Neurological Disease (Overview) Series 5 : Stroke Management	Dr. Harshad Purandare-Consultant Neurosurgeon
Managing spine injuries and Airway	Dr. Gauri Saroj- Consultant Intensivist
Lunch Break	
Skill Stations	
Speakers	
Neurological Assessment	Ms. Sujatha Kakarla/ Ms. Prajakta Dongarkar
Drain, Lines and Tubes in Neuro ICU	Ms. Rani Santosh/ Ms. Lincy Sebastian /Ms. Savita Manvel
BLS & ACLS	Ms. Marina Pinto and ACLS team
Airway Management	Ms. Sunita V S /Ms. Karleena Thomas
Tea Break	
Summary and QA	
Post Test	
Closing and Certification	Ms. Karleena Thomas

The first day commenced with an introductory speech by Dr. Ravindra Ghawat, who welcomed the speakers and delegates and provided a brief overview of neuro nursing. This was followed by a welcome note by Our Group COO, Dr. Shilpa Tatake, joined in for her support and motivation. The inaugural session set the tone for the day, which included various sessions led by in-house Nursing Admin Team, Consultants, Intensivists, and international speakers Ms. Karuna Thappa (International Lead of SNCC) and Ms. Kriti Napit, who were present on both days. Mr. Prafulla Salunkhe, an observer from the Maharashtra Nursing Council (MNC), was present throughout the sessions and provided valuable inputs. All the dignitaries and the opening session by Dr. Shine Anil.

PRE AND POST -TEST ANALYSIS

FEEDBACK ANALYSIS

GLIMPSE OF THE EVENTS (DAY 1)

GLIMPSE OF THE EVENTS (DAY 2)

SIMULATION BASED WORKSTATIONS

Station 1: BLS and ACLS The team of ACLS instructors, Dr. Jitpal Kaur Vig, Dr. Monika Singh, and Ms. Marina Pinto, focused on teaching and demonstrating the fundamental skills needed to respond to cardiac emergencies. The training covered CPR, stroke identification, and choking management. Each participant performed a redemonstration to ensure the effectiveness of the training.

Station 2: Neurological Assessment The neurological assessment workstation facilitated comprehensive evaluations of a patient's nervous system using models and live demonstrations performed on each other. Led by Nurse Educators Ms. Sujatha Kakarla and Ms. Prajakta More. The session served as a refresher training. It provided a standardized, efficient, and thorough approach to neuro assessments, making the concepts clearer for all attendees.

SIMULATION BASED WORKSTATIONS

Station 3: Airway Management Ms. Karleena Thomas, Nurse Educator, and Ms. Sunitha V.S, Nurse Manager, provided a comprehensive explanation of the workstation, covering both basic and advanced modalities as well as specialized techniques for airway management. They discussed topics such as airway assessment, medications used for intubation, and best practices for tracheostomy care. The session was innovative and captured the interest of many attendees.

Station 4: Drains, Lines, and Tubes used in Neuro ICU Ms. Rani Santosh and Ms. Lincy Sebastian, Nurse Managers, provided an in-depth session on invasive lines specific to neuro ICUs. They covered topics such as extra ventricular drains, ICP monitoring, CVP monitoring, and arterial and central line care, using both a mannequin and a simulator monitor. This session sparked significant interest among the participants, leading to numerous thought-provoking questions, which were expertly addressed by Dr. Sanjay Walke, ICU Consultant.

CONCLUSION

The second National Conference on Comprehensive Neuro Nursing Course (CN2C) was a resounding success, providing a vibrant platform for nursing professionals to enhance their knowledge and skills in neurocritical care. Delegates showed good improvement in the post-test and feedback suggested more such conferences on other systems of the body and regarding time management, which was taken into consideration.

The event not only facilitated learning and professional development but also encouraged networking and the exchange of ideas among participants.

The insights gained and relationships formed will contribute to the advancement of critical care practices and improved patient outcomes.
